Experience

Kindred Hospital, Ontario (October 2017 to present) – Medical Surgical Telemetry RN

- Cared for chronic, critically ill, and medically complex patients who require acute care over an extended period.
- Provided planning and delivery of direct and indirect patient care through the nursing process.
- Developed nursing care plans in coordination with patient, family, and interdisciplinary staff as necessary.
- Communicated changes in patient's clinical condition with physicians, nursing supervisor, and co-workers as appropriate.
- Delivered intensive care to transition patients home or to a lower level of care as quickly and safely as possible.

Preceptorship at Kaiser Permanente, Ontario (May 2015 to July 2015, 252 hours) – Medical Surgical Telemetry Orthopedic Unit

- Applied the Nursing Process to provide quality, comprehensive care for up to 5 patients per shift under supervision of RN.
- *Assessment:* Admissions/discharges, head to toe assessments, vitals, and blood glucose, and other necessary care.
- *Diagnosis:* Made clinical judgements about clients' needs and actual and potential health conditions.
- *Outcomes/Planning:* Created plans of care utilizing my clinical judgements and setting achievable and realistic goals. Documented all care and plans of care using charting software (MediTech 4 or Epic Hyperspace).
- *Implementation:* Followed through by providing competent care under Preceptor supervision.
- *Evaluation:* Constant evaluation and re-evaluation of patient status and the effectiveness of nursing care was done throughout shifts and duration of Preceptorship. Provided patient education and coordinated patient care with physicians, staff nurses, physical therapy, laboratory, dietician, social work, and respiratory therapy.

Vizcarra Dentistry, La Habra CA (July 2010 to June 2013) – Dental Assistant

- Direct patient care: vital signs, health history, digital x-rays, impressions, fabrication of temporary crowns and bridges
- Assisted Doctor for all dental procedures. Prepared notes for Doctor and charted in patient charts.
- Ordered supplies and kept track of inventory. Created and gave patient education for post-operative care at home, medications, med compliance, future dental work. Kept aseptic technique, sterilized instruments and operatories, set up/cleaned up after procedures. Adhered to OSHA.

Skills

- Exceptional knowledge of Windows and Mac Operating Systems; Proficient in the following computer software: Microsoft Office, LexiComp, Skyscape mobile app utilizing Davis' Drug Guide, Diseases and Disorders, drug calculator, MediTech 4, Epic Hyperspace
- Over 1100 hours of hands-on clinical experience in various nursing fields: Med/surg, Peds, OB, NICU, PACU, ICU, ER, GI lab, OR, Rehab, Mental health, home visits, clinics
